ABOUT THE WORK

Description: *A Beautiful Life Is Calling* explores optimism alongside the complexity of meaningful relationships. Its richly textured surface and unexpected curves create depth and movement, inviting the viewer to slow down and discover something new with each encounter. Rather than portraying love as perfect, the work celebrates it as layered, evolving, and deeply human—full of contrast, growth, and moments of surprise.

Inspiration: The inspiration for *A Beautiful Life is Calling* came from a moment of unexpected clarity about the beauty and preciousness of life. Just weeks before a friend's daughter's wedding, our family had been reminded how suddenly life can change. When we gathered for the celebration, there was an overwhelming sense of joy and gratitude—not only for the wedding ahead, but for the opportunity to share these moments. I caught a glimpse of the bride and groom together against a sunset of gold, orange and blue. I was struck by the beauty of the scene and the feeling that, despite life's unexpected challenges, so much joy and possibility lay ahead. Looking at that moment, I thought, *A Beautiful Life is Calling*. That feeling became the inspiration for this piece, a reminder to embrace the beauty, love, and possibilities that life continues to offer.
